You can find our lawyers featured and quoted in prominent publications such as The New York Times, The Wall Street Journal, and leading Texas newspapers. Some of our lawyers are authorities in their practice areas, having literally "written the book" on the subjects they specialize in. This depth of knowledge forms the foundation of our efficiency and creativity, allowing us to navigate our clients' cases with unparalleled expertise.

**The Power of Credibility:** When our lawyers step into courtrooms, judges recognize that we are state leaders in our respective practice areas. Our unwavering commitment to integrity and truthfulness sets us apart as advocates who represent the law and facts with honesty, not just as "hired guns." This credibility adds immeasurable value to every hearing, trial, or appellate argument we attend.

At our firm, substantive expertise is more than just a claim; it's a proven reality. We are ready to put our knowledge to work for you, providing efficient, creative, and credible representation that yields optimal results. When you partner with us, you gain access to a team of attorneys who have not only mastered the law but have helped shape it to benefit our clients.

## Our Presence

**487 County Courts, 432 District Courts, 14 Intermediate Courts of Appeal, 1 Supreme Court in the State of Texas...**

**... and one law firm whose lawyers are comfortable in any and all of these courts.**

Of course, in some jurisdictions the use of local counsel becomes necessary: We use such counsel efficiently to "level the playing field," but our expertise brings both consistency and efficiency to cases across Texas. Because we have a historical knowledge of the client and the necessary trial skills to win the case, our clients can rest easy knowing who is handling their lawsuit.
